*The ninth grade team project division has two categories: Life Sciences/Physical Sciences

**The senior team project division has one category.

Approximately 85% of the Science Engineering Fair of Houston annual operating budget depends on financial contributions from area businesses, foundations and professional societies. We are not-for-profit 501(c)(3) volunteer organization dedicated solely to providing a valuable and unique educational experience to public and private junior and senior high school students in southeast Texas. This major event incurs significant production costs even though volunteers fill our staffing needs. SEFH has no employees. Please assist in this endeavor by making a financial contribution to the Fair that is appropriate for the size of your organization. All contributions are recognized in SEFH publications.

Amount your agency will contribute to SEFH: \$ _____

SEND ALL CONTRIBUTIONS TO:
